SIGNATURE SERIES

ATM 202

Magnat

The Magnat Signature Series offers a versatile lineup of speakers designed for seamless interchangeability. All models (Signature 999, 809, 607, 603 and Edelstein) are crafted to work harmoniously together with a Center Pro II center channel, a pair of atmos surrounds ATM 202 and an Omega CS12 subwoofer allowing you to customize your audio setup without compromising on sound quality.

PERFECT FOR HOME THEATER ENTHUSIASTS

If you're a home theater enthusiast seeking to elevate your audio system, the ATM 202 is an ideal solution. It enhances your surround sound setup by adding the vertical dimension required for a true Dolby Atmos® experience. Whether you're watching the latest blockbuster movie, listening to spatial music, or gaming with immersive sound effects, the ATM 202 adds that crucial overhead sound element to make your audio setup feel complete.

3D AUDIO EXPERIENCE

The unique design of the ATM 202 allows it to reflect sound off the ceiling, creating true height effects for a more immersive soundstage. It adds depth and height to the sound, allowing you to experience overhead effects—like rain, helicopters, or soaring music—that are central to the Dolby Atmos® experience. This brings a cinematic dimension to your sound system, making you feel like you're in the middle of the action.

EASY INTEGRATION WITH EXISTING SETUP

The ATM 202 is built for easy setup and integration. Simply place it on top of your main speakers—whether they are floorstanding (999, 809, 607) or bookshelf models (603 or Edelstein)—and connect it to your Dolby Atmos®-compatible receiver. Its user-friendly design ensures that you can quickly enhance your system with no complicated installation process, allowing you to enjoy an enhanced sound experience almost immediately.

DESIGNED & ENGINEERED IN GERMANY

Magnat products are proudly designed and engineered in Germany, reflecting a commitment to precision, quality, and innovation. Our skilled team combines advanced technology with timeless craftsmanship to create audio solutions that deliver exceptional performance. Each product embodies the German engineering ethos, ensuring you experience superior sound and reliability.

OUTSTANDING SOUND PERFORMANCE

The Magnat ATM 202 delivers exceptional sound quality, thanks to its carefully engineered 2-way driver system. The fabric dome tweeter ensures precise high-frequency reproduction with excellent power handling and low weight, while its neodymium drive unit guarantees efficient energy transfer and high sensitivity. This combination results in clear, distortion-free treble, essential for delivering the detailed Atmos® effects in modern surround sound formats.

The bass-midrange driver features a lightweight, specially coated paper cone that provides excellent frequency response across the mid and low ranges. Its rigid yet lightweight design improves driveability and minimizes distortion, while the heavy-duty voice coil ensures precise control, even at high volumes.

All components are housed in a robust metal basket that reduces vibrations and ensures mechanical strength, while the elegant 6-point screw-fastened trim ring not only adds an aesthetic touch but also enhances the speaker's stability and durability. Additionally, a black magnetic grille can be easily placed or removed, providing further customization and protection.

A NEW SATIN FINISH

The Magnat ATM 202 is available in a new, elegant white or black satin finish, perfectly complementing the other speakers in the range. This sleek, modern finish not only enhances the aesthetic of your home theater setup but also ensures seamless integration with your existing speakers, creating a sophisticated, unified look for your entire audio system.
